

QUALITY POLICY

Cittadella, September 16, 2025

Our Company, specialized in the design and construction of plants for recycling and material handling, considers Quality a fundamental strategic element for achieving full customer satisfaction, while contributing to environmental protection and to the development of the community in which it operates.

The Company's commitment to Quality is based on the following principles:

- **Customer orientation:** we carefully identify and analyze customer requirements and expectations, providing innovative, reliable, and customized solutions that ensure efficiency, safety, and effectiveness in waste management processes.
- **Continuous improvement:** we are committed to the systematic enhancement of our products, processes, and organizational performance, adopting a proactive approach that promotes optimization, technological innovation, and the professional growth of all personnel involved.
- **Regulatory compliance:** we operate in strict compliance with all applicable laws, regulations, and standards regarding quality, safety, and the environment, ensuring full adherence to sector-specific requirements.
- **Employee involvement and collaboration:** we promote the active participation of all employees, encouraging teamwork, knowledge sharing, and accountability in achieving company objectives.
- **Stakeholder satisfaction:** we maintain transparent and constructive relationships with customers, suppliers, partners, and the wider community, fostering trust, continuity, and shared value creation.

Top Management undertakes to communicate this Quality Policy at all levels of the organization, ensure its dissemination, understanding, and implementation, and periodically review its continuing suitability and effectiveness, adapting it to evolving contexts and to emerging market challenges.
